Reach Out and Read in Wisconsin

November 2026

Profile

Reach Out and Read gives young children a foundation for success by incorporating books into pediatric care and encouraging families to read aloud together.

Doctors, nurse practitioners, and other medical professionals incorporate Reach Out and Read's evidence-based model into standard pediatric checkups, by advising parents about the importance of reading aloud and giving developmentally-appropriate books to children. The program begins at the newborn checkup and continues through age 5, with a special emphasis on children growing up in low-income communities. Families served by Reach Out and Read read together more often, and their children enter kindergarten with larger vocabularies and stronger language skills, better prepared to achieve their potential.

PROGRAMS

- 351 clinic locations in 66 counties
