

## Reading with your 9-month-old

She's not talking yet. But reading with her now will help her get words later.

Reading with Mommy shows him that books are fun!

You don't have to read the words. Just talking to her about the pictures helps her learn.

Ask him where the picture is. Then point to the picture and say "there it is!"

It's OK if she puts the book in his mouth!

You can make a book part of bedtime.

Reading with him now will help him in school later.

**Read with your baby every day! 😊**
